

The power of connected care

Noona patient engagement application is an oncology-focused solution designed with patients and care teams and can be easily integrated into treatment pathways.

CLINICAL BENEFITS

Scheduling Automation

Automatically share appointments and send patient reminders. Link symptom and QOL questionnaires by appointment type

Secure Messaging

Direct communication between the patient and care team

Symptom Management

Monitor patients' symptoms and toxicities throughout and post treatment

Are you getting the full story of your patients' health?

A study showed these symptoms went unreported during in-person clinic visits but were recorded via Noona.*

Anxiety	Pain	Respiratory Tract	Fatigue	Other	Hemioedema	Skin Symptoms
86.6%	69.0%	51.9%	44.8%	31.9%	30.2%	1.6%

"Implementing Noona has brought our radiotherapy, chemotherapy, and acute oncology service teams together and integrates the oncology service provision within the hospital."

- Head of Radiotherapy, UK

PATIENT-CENTRIC CARE

Patient Portal

Direct patient access to personalized clinic-provided education materials, appointment reminders, and clinical documents at any time

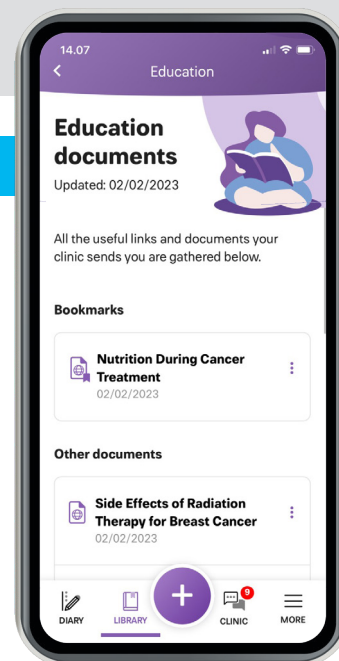

Case Management

Noona classifies and enables prioritization of clinical workload. Cases can be assigned to the most appropriate team for faster response, e.g. dietician, oncologist, scheduling

Optimal Treatment Delivery

Evaluate outcome data to help ensure the best possible result

Available in 12 languages

NOONA CONTENT FOR RADIATION ONCOLOGY

Treatment modules validated by a Medical Advisory Board with content made to support the specific needs of Radiation Oncology including:

- General
- Breast
- Head & Neck
- Abdominal
- Chest
- Palliative RO
- Bone
- CNS
- Pelvic

Noona Mobile Service is an oncology-focused solution designed to support patients from diagnosis through to post-treatment follow-up.

Noona empowers patients to record their symptoms, respond to questionnaires sent by their care team, maintain a personal diary, and is used as a tool for communication between patients and healthcare professionals.

Noona Mobile Service is not intended to be used for patient-clinic communication in case of acute medical emergencies.
